

CAUSTIC FOAM

TECHNICAL DATA SHEET

DESCRIPTION

Caustic Foam is a premium concentrated foaming alkaline cleaner designed for heavy-duty cleaning in breweries, beverage manufacturing plants, and bottling operations. BrewClean Caustic Foam effectively removes soils from tank exteriors and other surfaces. Manufactured in Canada.

PRODUCT INFORMATION

Caustic Foam is suitable for use in various cleaning applications where a concentrated foaming alkaline cleaner is required. It is ideal for removing stubborn residues from tank exteriors and other surfaces. For specific application instructions, consult a representative from BREWCLEAN. Dispose of contents/container following all federal, provincial, and/or local regulations.

MATERIAL COMPATIBILITY

Metal:

Compatible with stainless steel. Avoid prolonged exposure on all metal surfaces.

Plastic:

Not recommended for use on plastic surfaces.

Incompatible materials: Acids, soft metals- Zinc, Magnesium, Aluminum

TECHNICAL DATA

Specific Gravity: 1.04

pH: 12-14

Freezing point: -15°C

Initial boiling point and range: 97 °C

INSTRUCTION

Exterior Cleaning

Dilute Caustic Foam at the recommended concentration for your specific application. Apply Caustic Foam to the surface using a foam applicator or sprayer. Allow the foam to dwell on the surface for the recommended contact time. Agitate the surface with a brush or sponge to enhance cleaning action if necessary. Rinse thoroughly with water until foam and residues are completely removed.

PRECAUTIONS

Caustic Foam contains alkaline cleaners. Handle with care to prevent skin and eye contact.

- Wear proper personal protective equipment (PPE) when handling.
- Store Caustic Foam in sealed containers away from extreme temperatures.
- Store in well-ventilated place.
- Keep container tightly closed.
- Store in a cool, dry place.
- Store locked up.
- Store in corrosion resistant container with a resistant inner liner.
- Consult the Safety Data Sheet (SDS) for detailed information.
